DEEP PLATE**

**320ML  
TAZZALTA  
MUG**

Liberare la forma, to liberate the form, free form. See things the way you want to, break the rules. Who said plates are round? Who said plates need metallic trim on the edge? Who said plates need an even colour. Find your own way, throw a dinner party, enjoy. We are passionate, we are fun, metallic detailing for everyday dining. We believe that a sandwich eaten off a metallic side plate will be the most glamorous sandwich you have ever tasted. Be inventive, throw that spaghetti on the ceiling or at your guests, whatever it takes to not be predictable. Plain white is out, personality is in. We are the form liberated!
